**THE INJURIES**

In life one or other may meet with some accident. It may be an accidental fall, a hit from any object, puncture or cut from a sharp instrument or burns from fire or heated materials. Results might be sprains, fractures to the bones, strains to the body or damage to the skin or other organs.

Persons gone through a railroad accident, fire, fall and are bruised, covered with wounds and sores, burns wakes up often in the night with fear of sudden death, with an expression of terror. The horrors they have gone through are repeated. They experience dreadful anguish before they come to themselves. This is repeated night after night in persons who have escaped death by drowning in a river or an automobile or fire accident. There is no substance in their complaint except that the mind is in a state of shock and needs to be soothed back to state of calm.

Some of these problems require prompt medical attention, others need but less urgent care, and others will resolve with rest and common sense.

Homoeopathy can play great role in such situation. The advantage is not being taken because of less awareness among the people.

Homoeopathy medicines facilitate speedy recovery from shock and prevent its ill effects.

- Un like the antiseptics of allopathic, which only prevents sepsis, Homoeopathy antiseptic does two additional jobs. It reduces pain considerably in open wounds and also promotes healing.
- Allopathic antiseptics are poisonous if taken internally, because they are irritant chemicals. But homoeopathy medicines may be used internally and externally.
- A.T.S. injections will only prevent Tetanus but they can't reduce pain. But Homoeopathic medicine not only prevents Tetanus but also remove pain.
- Homoeopathic remedy is of great service in union of fractures and in wounds penetrating in to perineum and bones. A fracture heals much more quickly and with much less pain if patient takes homoeopathic medicine.
- If a larger area of the skin is burnt or scalded, homoeopathy advises not to pour cold water over it. If cold water is poured the heat is not allowed to come out and penetrated through the skin, which destroys the skin, and the tissues beneath resulting in blister formation and its consequences - discoloration, stiffness and pains.
- Homoeopathy has remedies for all kinds of injuries to various parts of the body i.e. traumatic influences
  - Burns.
  - Cauterisation ~ Sprains.
  - Stretching of sphincters ~ Operations.
  - Anaesthetics.

There is no routinism in homoeopathy such as painkillers to suppress pain Homoeopathy cures the sick both mentally and physically thereby pain is relieved.

Homoeopathy has long been known as a holistic medicine, free of pharmaceutically active substances and working at all levels of individuals. There is advice on remedies to promote total recovery from injury, as well as to reduce susceptibility to injury in the first place.

**Homoeopathy has cured and can cure many post traumatic conditions most gently and rapidly.**
