

**HAEMORRHOIDS AND HOMOEOPATHY**  
FORWARD MARCH – 31  
**JUNE -2009**

**INTRODUCTION**

The matter is being processed for throwing wastes and retaining the useful in this factory given by nature to its creatures for their existence. Lacs and lacs of actions and reactions are being carried out to extract the essence necessary for one's existence.

When the burden exceeds its normal values, its effects are being manifested at the rectum, the least vital organ of the system. This effect is known as Hemorrhoids or piles. These are dilated veins occurring in relation to the anus.

Symptomatic hemorrhoids may appear in pregnancy or from straining on maturation. They may also occur in chronic constipation. The rarest cause may include cancer of rectum.

**CAUSES:**

1. Mental Stress
2. Hereditary
3. Straining at stool
4. Constipation
5. Constant use of purgatives

**CLINICAL SYMPTOMS**

1. Bright red painless/painful bleeding
2. Prolapse
3. Discharge
4. Pain
5. Anemia

**HOMOEOPATHY AND HAEMORRHOIDS**

Homoeopathy gives a permanent relief to the patient suffering from piles. Its aim is to cure the disease and not its by products. It not only removes the disease but also the tendency of an individual for it.

It is the effort of the system to relieve the disturbances from an individual. Any effort to suppress it at this level results in moving of a disease to other vital organs.

**CASE**

A lady named Y aged 33 years came with the complain of haemorrhoids rectum. She had ineffectual desire to pass stool with severe pricking pain in the anus. Stool came out with blood and mucus. There was sensation as if stones would come out of the rectum instead of stool. She felt better after passing stool. On further case taking it was found that there was a history of disappointed love and all her complaints started after she was married against her will. Clearly this was a case of suppressed emotions. After analyzing the case and taking into account all her physical and mental symptoms she was being prescribed STAPH 200. On her next visit she felt better. STAPH was followed by IGNATIA 200. Now she has no pain and there is no blood while passing stool. Mentally also she feels better and peaceful now.
